{youtube}4IT2DQtpwnQ{/youtube}

Connected by 25 is a great organization that helps foster kids that age-out of the Florida foster care system. So, these are kids that are 18, still in High School, and they are asked to leave their foster home, because the state will no longer support them. So, many of them become homeless, and have to drop out of high-school.

Connected By 25 helps these kids with a place to stay, and funds to live while they finish High School, then they help to get them training and a job. Please help them if you can.

This a Weekend Film Crew production
